Description

The walkaround philosophy expands across the 16 meters of the Pardo 50, embodying its maritime spirit in every detail and moment on board. Its sleek lines, iconic inverted bow, and raised bulwarks create a seamless design, integrating the bow sunpad, a spacious living area shaded by a 16-square-meter carbon fiber T-top, and the aft sunpad, which extends gracefully toward the swim platform. The interplay between this central hub and the walkaround's perimeter layout highlights the harmony between the joy of connection with the sea and the expertise of advanced Italian craftsmanship. This creates a perfect balance of functionality, comfort, and design. True to the power that defines the range, the Pardo 50 offers a thrilling driving experience. Equipped with the IPS propulsion system, it delivers exceptional performance, fuel efficiency, and superior maneuverability, while its original deep-V hull ensures outstanding seakeeping for safe and fast cruising.
